

DES AR Reference Sheet

Our "Harmful Blue Light Blocker" plus AR - for the relief of Digital Eye Strain (DES)

FEATURES

- DES AR is Opticote's exclusive Blue Light Blocking coating *plus* Illusion AR
- Prevents problems caused by overexposure to harmful blue light
 - Eye strain, blurred vision, headaches
- For users of digital devices
 - Smartphones, tablets, computer screens
- Lenses coated with Opticote DES AR block harmful blue light
 - Turns ordinary clear lenses into blue light blockers
- Two-sided coating
 - Front side: blocks harmful blue light
 - Back side: Illusion AR - Opticote's flagship broadband AR

LENS REQUIREMENTS

- Both edged or uncut hard-coated lenses may be used
- Materials: Plastic, Poly, Hi-Index, Photochromic, Transitions and Trivex are all OK

TURNAROUND

- 2 day turnaround - normally ships 2nd day after ordered (*example: ordered Monday, ships Wednesday*)

ORDERING

- On newer Opticote job envelopes: Circle: **DES AR** on the job envelope
- On older Opticote job envelopes: Write: "**DES AR**" in the Special Instructions box
